This permit has been proposed to allow for the issuance of a modification or waiver to the food code as long as a health hazard or nuisance will not result from the modification or waiver. Permit Required	Sub Type	Current Fee 2yr	Proposed Fee 1yr
Inspection upon request	Eating & Drinking	None	240.00

Inspection upon request

It is believed that facilities may wish to pay for an inspection to help deal with poor performance, frequent complaints and/or other issues. These inspections would be in addition to the number the facility will receive for delegation/risk based frequency. Primarily, it is assumed that these inspections will be for Eating and Drinking Establishments and the average inspection time for class 4 facilities was a factor used in determining fees.

Swimming Pool Plan Review	Sub Type	Initial Fee	Maximum Fee	Proposed Fee
Pool<1000 sq.ft		200.00	840.00	770.00

Swimming Pool Plan Review

This fee is being established to elevate past discrepancies between the costs of bathing facilities that are less than 1000 sq. ft. These smaller bathing facilities require less time to review. This permit has been proposed to recover cost for services as required by county policy and by state statute.

Permit Required	Sub Type	Current Fee Per Plan	Proposed Fee Per Plan
Pool Remodel	Simple	30.00	165.00
Pool Remodel	Complex	30.00	250.00

Pool Remodels

When the new Swimming Pool Code was adopted in April 2004, there was not a fee for pool remodels so the "all other" category in the fee schedule was used and it accounts for the \$30.00 fee. This permit has been proposed to recover cost for services as required by county policy and by state statute.
